

CONTENTS

journal or publication title	Science reports of the Research Institutes, Tohoku University. Ser. A, Physics, chemistry and metallurgy
volume	7
page range	A1-A5
year	1955
URL	http://hdl.handle.net/10097/00101873

General Contents

	Page
Kanda, E., Haseda, T. and Ôtsubo, A. : Paramagnetic Susceptibility of Solid Oxygen	1
Maruyama, M. : Studies on Pyrrhotite. III. Sintering of Pyrrhotite Cinder	6
Gotô, H. and Watanabe, S. : Determination of Manganese in Iron, Steel and Ferromanganese. II. Determination of Manganese in Ferromanganese	17
Gotô, H., Kakita, Y. and Suzuki, S. : Studies on the Determination of Selenium and Tellurium. III	23
Ikeda, S. : Studies on the Flame Spectrochemical Analysis. I. Micro-determination of Sodium in Aluminium Metal	29
Yamamoto, M. and Taniguchi, S. : The ΔE -Effect and Young's Modulus in Nickel-Cobalt Alloys	35
Fujita, F.E. : On the Formation of Dislocation Networks in Some Crystal Lattices	50
Satô, M. : A Method of Accurate Determination of Absolute Values of X-Ray Levels in Copper. (II, 6)	56
Sugawara, T., Masuda, Y., Kanda, T. and Kanda, E. : Nuclear Magnetic Resonance in Solid Hydrogen with Various Ortho Concentrations	67
Oka, Y. and Miyamoto, M. : Spectrophotometric Studies on Organometallic Complexes Used in Analytical Chemistry	84
Kamiyoshi, K. and Miyamoto, T. : Dielectric Anomaly of Ammonium Sulfate at Its Transition Temperature	91
Matsuki, Y. : The Autoxidation of Hydrocarbons in Liquid Phase	99
Gotô, H. and Kakita, Y. : Determination of Free Lime in Slag	135
Kakita, Y. and Namiki, M. : Studies on the Determination of Arsenic. VIII. Determination of Arsenic by Use of Liquid Amalgam	140

Yamamoto, M. and Watanabé, J.: The Light-Figure Phenomenon Revealed and Crystal Planes Developed by Etching in Tetragonal Tin Crystals and the Determination of Their Crystal Orientations by the Light-Figure Method. I. The Light-Figure Phenomenon Revealed and Crystal Planes Developed by Etching	145
Yamamoto, M. and Watanabé, J.: The Light-Figure Phenomenon Revealed and Crystal Planes Developed by Etching in Tetragonal Tin Crystals and the Determination of Their Crystal Orientations by the Light-Figure Method. II. Orientation Determination by Light Figures	161
Yamamoto, M. and Watanabé, J.: Further Studies on the Orientation Determination of Cubic Metal Crystal Rods by the Light-Figure Method	173
Ogawa, S. and Watanabe, D.: Electron Diffraction Study on Titanium Attacked by Various Acids	184
Suzuki, H.: Slow Motion of Dislocation in Face-Centred Cubic Crystal	194
Sanbongi, K. and Ohtani, M.: On the Activities of Coexisting Elements in Molten Iron. III. The Activity of Mn in Molten Fe-Mn Alloy	204
Date, M.: On the Phenomenological Theory of the Fine Exfoliating Disintegration	210
Shimo, K., Andô, T. and Fuse, A.: On Anhydrous Cellulose Xanthate. I. Preparation of Anhydrous Cellulose Trisodium Xanthate	229
Shimo, K. and Tada, R.: Organic Synthetic Chemistry in Liquid Ammonia. II. Etherification of α -Mannitol	235
Aida, K.: Raman Spectra of Liquid Ammonia Solutions. IV. Liquid Ammonia- <i>n</i> -Propyl Alcohol and Liquid Ammonia- <i>iso</i> -Propyl Alcohol	242
Imai, Y. and Imai, H.: On the Mechanism of Boron Hardenability	249
Yamamoto, M. and Watanabé, J.: On the Solution-Body Phenomenon and Anisotropy of Solution Rate in Zinc Crystal	262
Taniguchi, S.: A Theory of the Uniaxial Ferromagnetic Anisotropy Induced by Magnetic Annealing in Cubic Solid Solutions	269
Hirone, T. and Adachi, K.: Formation of Superlattice in Face-Centered Cubic Lattice with a Special Reference to the Copper-Platinum System	282
Gotô, H. and Kakita, Y.: Studies on the Determination of Arsenic. IX. Photometric Determination of Arsenic in Iron and Steel by Extraction with Organic Solvents	294

Gotô, H. and Ikeda, S. : Catalytic Analysis. XXV. Microdetermination of Copper with <i>l</i> -Ascorbic Acid	301
Sudô, E. : Studies on the Determination of Metals by Extraction Method of Metal Organic Compounds. VII. Determination of Mercury and Bismuth with Antipyrine	306
Sudô, E. : Studies on the Determination of Metals by Extraction Method of Metal Organic Compounds. VIII. Determination of Iron with Antipyrine	312
Torizuka, Y., Kojima, Y. and Kamiryo, K. : The Zeeman Effect in Ammonia Microwave Spectra	316
Kojima, H. : Magnetic Behavior of Fe-Ni Compacts under Sintering Process	321
Yamamoto, M. and Watanabé, J. : Light-Figure Phenomenon Revealed and Crystal Planes Developed by Chemical Etching in Zinc Single Crystals	329
Ôtsubo, A., Haseda, T. and Kanda, E. : Specific Heat of Amorphous State. II. True Specific Heat of Glassy State	338
Nakajima, K. and Sutoki, T. : Sub-Boundaries in Aluminium Single Crystals	344
Kachi, S. : Thermodynamic Properties of α and β Silver-Magnesium Alloys	351
Gotô, H. and Kakita, Y. : Photometric Determination of Microamount of Tellurium with Sodium Diethyldithiocarbamate and Its Application for the Analysis of Iron and Steel	365
Masumoto, H. and Sugihara, M. : On the Positions of the Equivalent Poles in a Magnetized Bar Tested by the Magnetometer Method. II. Tungsten Magnet Steel and K.S. Magnet Steel	377
Ono, K. and Sudo, K. : On the Dissociation Pressures of Germanium Sulfides	385
Oka, Y. and Kanno, T. : Spectrophotometric Study on the Determination of Germanium	396
Saitô, T. and Kawai, Y. : Rate of Desulphurization of Molten Iron by Slag under Reducing Condition	402
Okamura, T., Kojima, H. and Watanabe, S. : Studies on the Oxide Magnets. I. Effects of Bi_2O_3 on Barium Ferrites	411
Okamura, T., Kojima, H. and Watanabe, S. : Studies on the Oxide Magnets. II. Effects of Bi_2O_3 on Strontium and Lead Ferrites	418

Masumoto, H. and Sugihara, M. : On the Positions of the Equivalent Poles on a Magnetized Bar Tested by the Magnetometer Method. III. Electrolytic Iron and Mo-Cr Permalloy	425
Satô, M. and Suzuoka, T. : Study on the Transformation of Zinc by Electric Resistance in Connection with Eutectic Phenomena	433
Kawasaki, M., Yamaji, K. and Izumi, O. : Equilibrium of Solid Phases in Cu-Mn Binary System	443
Hirone, T. and Kamigaki, K. : Attenuation of the Ultrasonic Waves in Metals. I. Aluminium	455
Masumoto, H., Saitô, H. and Takahashi, M. : Anomaly of Specific Heat in α -Phase Alloys of Copper and Aluminium	465
Imai, Y. and Ôhara, S. : Heat-Treatment of Forged Roll Steel	469
Oka, Y. and Miyamoto, M. : Spectrophotometric Studies on Organometallic Complexes Used in Analytical Chemistry. II. Composition and the Dissociation Constant of Ferrous-Nitroso R Salt Complex	482
Ohtani, M. : On the Activities of Si and C in Molten Fe-Si-C Alloys	487
Kojima, H. : Studies on the Oxide Magnets. III. Effects of TiO_2	502
Kojima, H. : Studies on the Oxide Magnets. IV. Effects of Al_2O_3	507
Abe, S. and Shima, B. : Gas-Volumetric Analysis of Carbonates	515
Abe, S., Uchigasaki, K. and Ito, M. : Preparation of Hydroxylamine Using Liquid Sulfur Dioxide	524
Masumoto, H., Saitô, H. and Sugai, Y. : Influence of Addition of Nickel on the Thermal Expansion, Rigidity Modulus and Its Temperature Coefficient of the Alloys of Cobalt, Iron and Chromium, Especially of Co-Elinvar. II. Additions of 30 and 40 per cent of Nickel	533
Suzuoka, T. and Kuroyanagi, T. : Singularity in Pure Zinc at High Temperatures	541
Shibuya, Y. and Tanuma, S. : Paramagnetism of Tin Observed at the Superconducting Transition	549
Sudô, E. : Studies on the Determination of Metals by Extraction Method of Metal Organic Compound. IX. Determination of Antimony and Bismuth with Antipyrine and Potassium Iodide	568
Ikeda, S. : Studies on the Flame Spectrochemical Analysis. II. Determination of Microamount of Calcium and Magnesium	575
Ôtsubô, A. and Sugawara, T. : Thermal and X-Ray Studies on Solid Cyclohexanol Polymorphism and Anomalous Specific Heat in Supercooled State	583

Kojima, Y. : Resonance in α Fe ₂ O ₃	591
Shimo, K. and Andô, T. : Studies of Acetylenic Derivatives. I. Ethynyl Carbinol	595
Abe, S. and Okabe, T. : On the Purification of Sodium Cyanate by Liquid Ammonia	601
Shimo, K. and Andô, T. : On Anhydrous Cellulose Xanthate. II. Prepa- ration of Anhydrous Cellulose Xanthates Having the Optional r Value ..	617
